WORK EXPERIENCE

Frontend Developer
Knightfox App Design LTD

03/2021 - Present   *Jamaica*

Caribbean-based software design studio founded in 2013 and specializing in cloud architecture and digital transformation solutions.

Achievements/Tasks

- I collaborated closely with the UI/UX Design team to finish the assignments allocated to us in record time.
- Created user interfaces that are accessible, responsive, and functional, allowing visitors on any device to enjoy the same great user experience.
- I designed the user interface that retrieved, processed, and structured analytic data before relaying it to Vue components.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3, which improved user satisfaction.

Contact : Egbert Frankenberg - egbert@knightfoxapps.com
